Future opportunities

Master in Design

Carrer Opportunities :

- Graduates of NSCAD's Major in Interdisciplinary Design have successful careers in design firms and agencies. Many advance to become art/creative directors or establish their own design companies. In addition, design strategy is advantageous in fields such as marketing, public relations, the pure and applied sciences, health and public policy.

Benefits :

- Design Print Services directly supports NSCAD's design programs.
- Master: Part time available (if finished in 5 years)
- Possibilities to study aboard
