Voted the best student city 4 times in the last 8 years

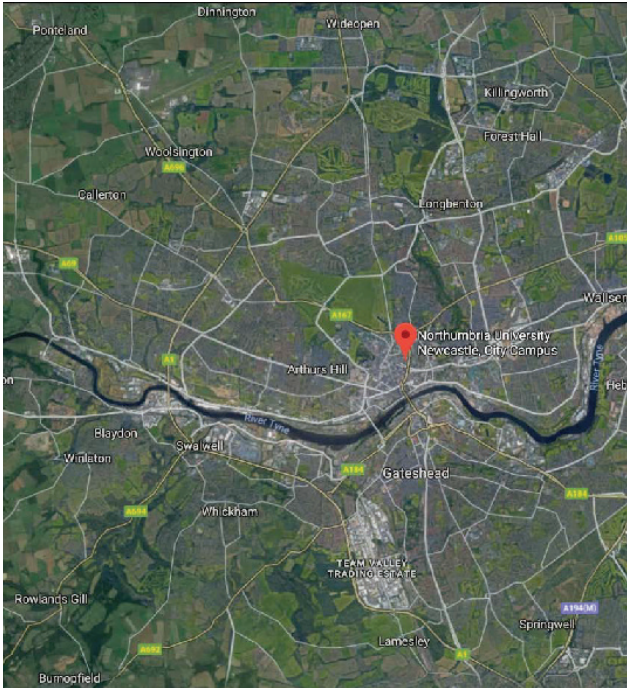

Living in Newcastle:

Vibrant

Multi-cultural city (warmth and friendly culture)

Famous landmarks (coastline, beaches, castles)

Easy accessible and well connected(air, sea, rail)

Information about the program (specialization, equipment, faculty);
Graduate Environmental Design Degree

About Design MA:

blend of theory and practice in the context of business and society
focus on your own specialist area of design practice (3D, Fashion Communication, Fashion Design, Fashion Marketing, Graphic Design, Communication Design, Service Design, Interaction Design, Industrial Design, Interior Design and Transportation Design)
Collaborative projects with industry, collaborative companies or exhibitions

Teaching staff:

Dr. Stuart English:

- currently supervising three PhDs that all explore the designer's relationship with the creative event.
- Specialist in design innovation
- Written several books, took part in multiple international conferences

Mark Bailey:

- Believes that industrial design education must be rooted in the traditional craft skills of drawing, making and the form-making of exquisite artefact

Application Guideline Information (official documents; written forms; portfolio (online/pdf/print); references etc.)
