US ArtCenter Graduate Environmental Design Degree

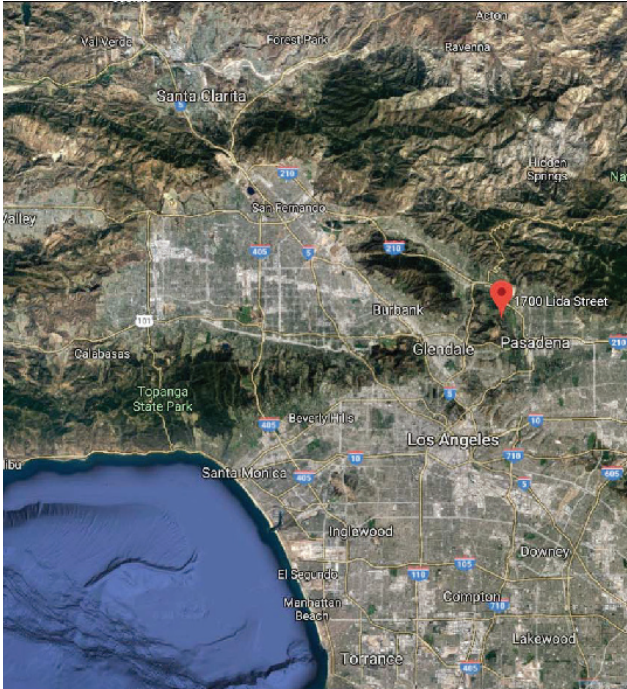

Pasadena, California, U.S.A

About the school (name, location, reputation with URL)

The ArtCenter is a private nonprofit that is accredited by WASC Senior College and University Commission.

The ArtCenter is the first design school to receive the United Nations' Non-Governmental Organization status.

The ArtCenter alumni have had a profound impact on popular culture and this can be felt at the school by how people live and discuss important issues in society.

Information about the program (specialization, equipment, faculty); Graduate Environmental Design Degree

It is a Master of Science, focuses on sensory-based design and considering the links between psychological, physical, emotional and sensory effects of design.

Graduates exit program with increased capacities to advance the impact and discipline of environmental design.

Choice between two paths; Spatial Experience or the Furniture and Fixtures track.

Tuition and Fees 40 596\$

Room and Board 13 530\$

Books and supplies and other 10 830\$

tot: 64 956\$

Students with a solid/average portfolio and a 3.3 gap can receive up to 7000\$ according to their

With an “average” profile, there is an additional 7 000 that can be added as help from the school which means that the final price is 48 256\$ per year.

Anticipated career opportunities & unique benefits of this program (where this program can lead).

The school has a large list of affiliated businesses such as Apple, BMW, Facebook, Cartoon Network, Ferrari, Google, HTC and many more. The school strongly suggests an internship and has great resources to keep alum connected with the students that are in the school. Many Alum seem to follow to the creation of their own line of products might it be furniture or anything else.
